

Multi Factor Authentication

SMS PASSCODE offers flexible policy-driven administration and protects multiple systems on a global scale. The solution seamlessly integrates to both remote access systems and cloud applications.

CensorNet

Features

- More Factors Working to Your Advantage
- Real-Time and Session-Specific
- Advanced Attack Protection
- High Passcode Security
- Unmatched Reliability
- Status Feedback
- Flash SMS
- MemoPasscodes™
- Location Aware Message Dispatching

Description

SMS PASSCODE is easy to install, deploy and manage. The platform offers flexible policy-driven administration and protects multiple systems on a global scale. The solution seamlessly integrates to both remote access systems and cloud applications. The SMS PASSCODE platform allows you to get up and running in less than an hour. Run plug-and-play installation of the SMS PASSCODE software, setup the preferred dispatch mechanism(s), and the system is ready for use. Rollout involves no software deployment on user devices and practical training of the user group is not needed. SMS PASSCODE comes with one-click integration to Active Directory and LDAP Directories. No schema changes or extensions are required.
