

ePolicy Orchestrator

A single console for all your security management. The most advanced, extensible, and scalable centralized security management software in the industry.

McAfee

Features

Guided configuration, automated work stream, and predefined dashboards make getting started a snap.

Tag-based policy assignment precisely targets assignment of predefined security profiles to systems based on their business role or at-risk status.

Task catalog and automated management capabilities streamline administrative processes and reduce overhead.

A single web interface aligns security processes for maximum visibility, while a single agent reduces the risk of endpoint conflicts. Scale for enterprise deployments

Enterprise-class architecture supports hundreds of thousands of devices on a single server.

Supports complex and heterogeneous IT environments.

Enterprise reporting across on-premises and Security-as-a-Service (SaaS) security information.

Description

A single console for all your security management. The most advanced, extensible, and scalable centralized security management software in the industry. Get a unified view of your security posture with drag-and-drop dashboards that provide security intelligence across endpoints, data, mobile and networks. Simplify security operations with streamlined workflows for proven efficiencies. Flexible security management options allow you to select either a traditional premises-based or a cloud-based management version of McAfee ePO.

Leverage your existing third-party IT infrastructure from a single security management console with our extensible architecture.
